Top Skills

Data Structure & Algorithms

Node.js

Express.js

Certifications

2022 Complete Python Bootcamp
From Zero to Hero in Python

Microsoft Azure Essentials

Complete React Hooks Course
2021: A - Z (Scratch to React)

Java (Basics)

Node JS - Master The Fundamentals

Jannaram Premchand

Full Stack Web Devloper | React Js | Django | Spring Boot | Data
Structures & Algorithms (DSA) | Python | Java
Hyderabad, Telangana, India

Summary

As a Full Stack Web Developer with a robust background in both
Frontend and Backend Development, I am passionate about creating
innovative solutions to complex problems and delivering exceptional
user experiences.

Frontend Development
Web Technologies: Proficient in HTML, CSS, JavaScript, jQuery,
and SCSS, specializing in responsive design and front-end
optimization.
Frameworks and Libraries: Experienced with React-JS and Redux,
building dynamic and interactive web applications. Skilled in
Bootstrap and Tailwind CSS for crafting visually appealing interfaces.
Development Tools: Chrome Developer Tools for debugging and
performance optimization.

Backend Development
Programming Languages: Strong proficiency in Python and Java,
developing robust backend systems and APIs.
Frameworks: Experienced with Django for building scalable web
applications and Spring Boot for creating enterprise-level Java
applications.
JavaScript Frameworks: Skilled in NodeJS and ExpressJS,
developing server-side applications and RESTful APIs.
Database Management: Proficient in SQL and PostgreSQL, ensuring
efficient database design, management, and optimization.
DevOps: Familiar with Docker and Azure DevOps, implementing
containerization and continuous integration/continuous deployment
(CI/CD) pipelines. Experienced with AWS for cloud-based solutions.
Development Tools: Proficient in using Git and GitHub for version
control, ensuring efficient collaboration and code management.
Familiar with Postman for API testing for test-driven development
(TDD).

My Journey
At Webdew Pvt. Ltd., I honed my frontend skills, contributing to projects like Wellics, Performance Health US, and Macarfoods. My work focused on improving user experiences and optimizing performance through advanced frontend technologies.

As a Product Development Specialist at Acies Consulting LLP, I broadened my backend and strategic capabilities. I was instrumental in developing Revolutio, a 'no-code' digital transformation platform, and enhancing Acies Lighthouse, an edX-based learning management system. These projects highlighted my expertise in backend development and DevOps practices.

Personal Attributes
Inventive, Robust, Intuitive, Strategic — these qualities define my approach to web development. I am excited about new opportunities to contribute to innovative projects and collaborate with dynamic teams to drive technological advancements.

I am eager to apply my skills and knowledge to real-world projects and collaborate with industry professionals. Let's connect and explore new opportunities together!

Experience

webdew
Associate Frontend Developer
August 2023 - October 2023 (3 months)
India

I excel in translating mockups into functional web pages, emphasizing polished and reliable user interfaces. Committed to enhancing user experiences, I possess a deep understanding of responsive design principles and prioritize optimizing page load times. Additionally, I seamlessly integrate my skills with HubSpot, leveraging its capabilities to implement effective lead generation, customer engagement, and content management strategies. This integration not only streamlines our workflow but also contributes to a more cohesive and data-driven approach, ensuring that our web solutions not only look impressive but also align with our clients' marketing goals.

Acies

1 year 5 months

Product Development Specialist

September 2022 - August 2023 (1 year)

Mumbai, Maharashtra, India

Played a pivotal role in driving innovation and transformation in cutting-edge platforms. I actively contributed to the development of Revolutio, a 'no-code' digital transformation platform, and enhanced Acies Lighthouse, an edX-based learning management system, with groundbreaking functionalities for transformative e-learning experiences.

Associate-Tech Works

April 2022 - August 2022 (5 months)

Mumbai, Maharashtra, India

Instrumental in cultivating innovation and change within cutting-edge platforms, I predominantly focused on the frontend aspects. My active involvement revolved around propelling the advancement of Revolutio, a digital transformation platform designed to operate effortlessly without the necessity for coding.

Education

Bharathiya Vidya Bhavans Vivekananda College of Science, Humanities & Commerce

Bachelor Of Computer Applications, Computer Applications · (June 2017 - December 2020)
